Att. ne Gian Luigi Molinari

**Subject: Best LIFE-Environment Projects 2005-2006 Award Plaque.
LIFE02ENV/IT/000092 CER-COM**

Dear Mr. Molinari

As you are aware, your project was evaluated as being one of the "Best LIFE-Environment Projects 2005-2006".

In addition to my personal congratulations, I am pleased to enclose a glass plaque to mark this award, which I hope you will display prominently in your offices.

In the autumn we will have completed the page on our web site and the brochure dedicated to this exercise which describes your project as well as the other "best" projects. In the meanwhile you may wish to consult the web page and brochure for the best projects 2004-5 at:

<http://europa.eu.int/comm/environment/life/project/bestlifeenv.htm>

Environmental progress in Europe depends to a large extent on the widespread use of ideas developed by ground-breaking projects such as yours. I would therefore be very interested to hear from you in the coming years as to how the innovative environmental technologies, techniques and solutions you are successfully developing have been more widely disseminated and used across Europe.

Yours sincerely

Philip Owen
Head of Unit
